

VLAx15LP

6-way Diversa Pod

> Applications

- Fixed or Mobile Operation
- OB-Van
- Live Events

> Features

- Small Rugged Size
- Subdivided Frequency (1.9 to 7 GHz)
- Integrated Downconverter to UHF
- Integrated Low Noise Amplifier
- One-Cable Solution

> Performance

The Diversa Pod is a 6-way compact antenna unit with linear polarisation for wireless camera or DENG applications. It is equipped with integrated down converters and covers the frequency range from 1.9 to 7 GHz. The compact size allows flexible mounting options.

Technical Characteristics

Frequency	1.9 to 7 GHz (subdivided)
Impedance	50Ω
VSWR	>10dB
Polarisation	Linear
Gain	15dBi (depending on frequency)
3 dB Beamwidth Vertical	70°
3 dB Beamwidth Horizontal	360°
Downconverter Frequency Output	70 to 867 MHz
Standard Connector	Multicore 6 x UHF
Dimensions (D x H)	Pod: 457.2 x 431.8 mm (approx. 18" x 17")
Weight	Approx. 5kg (11.02 lbs)
