## 6-way Diversa Pod

### > Applications

- Fixed or Mobile Operation
- OB-Van
- Live Events

### > Features

- Small Rugged Size
- Integrated Downconverter to UHF
- Integrated Low Noise Amplifier
- One-Cable Solution

### > Performance

The Diversa Pod is a 6-way compact antenna unit with linear polarisation for wireless camera or DENG applications. It is equipped with integrated down converters and covers the frequency range from 1.3 to 1.5 GHz. The compact size allows flexible mounting options.

### Technical Characteristics

<b>Frequency</b>	1.3 - 1.5 GHz
<b>Impedance</b>	50Ω
<b>VSWR</b>	>10dB
<b>Polarisation</b>	Linear
<b>Gain</b>	TBD
<b>3 dB Beamwidth Vertical</b>	TBD
<b>3 dB Beamwidth Horizontal</b>	360°
<b>Downconverter Frequency Output</b>	70 to 867 MHz
<b>Standard Connector</b>	weather tight cable connector 6 x UHF
<b>Dimensions (D x H)</b>	TBD
<b>Weight</b>	TBD
